## Accessory 01

# Apollo M1

The Apollo M1 wireless camera system provides the ultimate safety assurance and enhances the efficiency of crane/plant operations by optimising site awareness, eliminating blind spots and improving communication. The robust and low maintenance system can be installed easily on hook blocks of all cranes, and with the high-powered magnets can be installed on any plant. The high-efficiency solar battery bank powers the system for up to 7 days before any charging is required. The wireless transmission delivers instant audio/video of the load view and its surroundings directly to the touchscreen display within 500m. Full-HD monitors support up to 4 cameras in real-time, keeping everything in sight. Easy swipe to zoom in/out. Full SD recording for playback which records for up to 14 days, which can be extended with additional memory.

Accessory 02

## Scarlett Windpro

WIRELESS ANEMOMETER - Online Wireless Wind Monitoring System

Scarlet WindPro is a stand-alone system that helps users get real time site wind information, anywhere, from any smart device by simply logging into Scarlet web portal. The novel Smart Wind Monitoring System perfectly solves the spatial limitation that has long troubled users from large-scale constructions, marine ports and offshore sites. By using Scarlet Wind Pro , users are no longer restricted to monitor wind on site in person but can freely observe wind either from PC, laptops, smartphones or tablets in remote distance.

It helps you to deliver the best operational strategy for your project. Scarlet Wind Pro is the perfect accessory for users who wants to manage worksites smartly, reduce costly accidents and risks in team.
